[Aryan Jagushte](#)

Founder and Robotics Engineer, 17k+ Followers on LinkedIn and runs his own Company and Podcast to help students skill up.

We are a team of specialised engineers and educators who are helping out students learn new skills in the field of AI and Robotics.

"Building robots and integrating ai are what we believe in and that's what our students do"

About robotry:

At robotry, we are passionate about empowering the next generation of engineers with hands-on knowledge in robotics and the Robot Operating System (ROS). Also; we develop products.

Through our workshops and seminars at various universities, we aim to bridge the gap between theoretical learning and practical implementation. By engaging directly with students, we provide real-world insights, industry-relevant skills, and interactive sessions that help them understand the fundamentals of robotics, from design and programming to navigation and automation.

ROS2 Workshop

Dayanand Sagar University, Bangalore

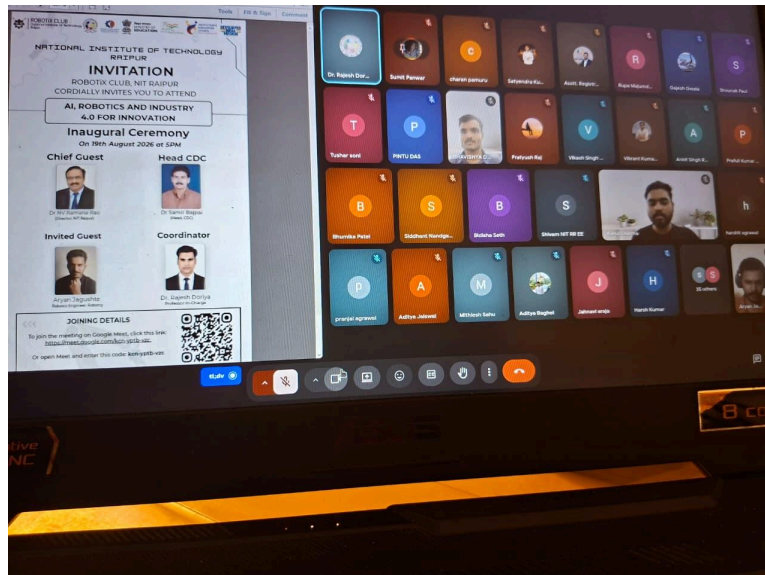

ROS2 Workshop

KLE Technological University, Hubli, Karnataka

ROS2 Workshop

National Institute of Technology, Raipur

ROS2 Workshop

RGMCET, Nandyal, Andhra Pradesh

ROS2 Workshop

JSPM Rajashri Shahu College of Engineering, Pune

ROS2 Workshop

D. Y. Patil College of Engineering, Akurdi

ROS2 Workshop

Rajarambapu Institute of Technology, Islampur, Sangli

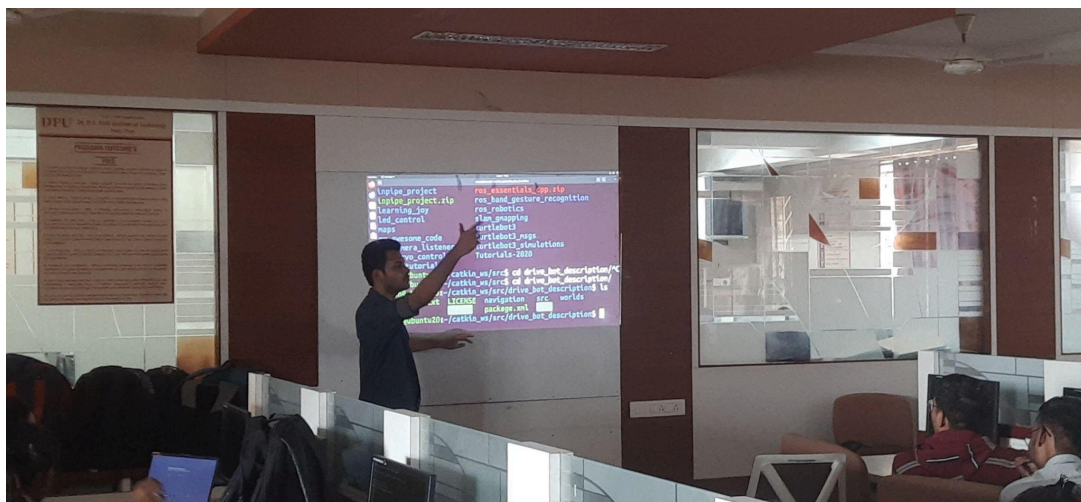

ROS2 Workshop

Zeal College of Engineering, Pune

ROS2 Workshop

Dr. D. Y. Patil Institute of Technology, Pimpri, Pune

Events and Seminars:

ROSCon India, Bangalore, 2024

ROSCon India, Pune, 2025
